

## Artificial Intelligence product detection in weighing machine.

High Return on Investment (ROI) because it reduces fraud, errors and weighing time thanks to Artificial Intelligence.

**Anaimo AI Vision** is the most revolutionary product in its category, thanks to our proprietary SDK and AI expertise since 2007:

- Detects the product in less than 0.5 seconds.
- Up to 100% success rate to reduce fraud, errors and weighing time.
- Learns in real time, in-situ and with very few images.
- Easy to configure and maintenance-free.
- Compatible with any hardware, including legacy.
- In the cloud or on-premise with integration via API Rest.
- Source code available.
